6 september 1961.

Mr. Jack Bornoff,  
Executive Secretary,  
International Music Council,  
6, Rue Franklin, Paris.

Dear Mr. Bornoff,

Am sorry for the delay in replying to your letter. Have been awaiting the documents you mentioned, but which to date have not arrived, and also some form of official authorization from you regarding the tentative nomination of myself as I.M.C's official delegate in Thailand.

So far, the persons concerned on this side have not contacted me regarding this matter, and I am completely in the dark and do not know how to proceed, if at all. Anyhow, if I am to be nominated in this capacity at all, don't you think that I have to have some sort of authoritative credentials to present to the local persons concerned, if they agree to accept my nomination, which will facilitate contacts.

The bearer of this letter is my sister, Mrs. Chin Chayapak, who is an assistant to Dr. Amphorn, so you may depend on her for her attention regarding the above matter and any further policies you may care to broach. She is on a round-the-world observation tour concerning music and broadcasting activities.

Thank you for the honour of being so kind as to nominate me to such a responsible position, which makes me feel that I may be of some service to the I.M.C. in this part of the world. Thank you also for your kind wishes to my wife and me, and which we warmly reciprocate.

Yours sincerely,

.....
