14th April 1958

Dear Sir:

I have received your letter of the 1st April and appreciate your kind invitation to participate in the International Music Congress from 24th to 30th October 1958 at Unesco House, Paris.

At your suggestion I have already been to see Mr. Noel F. Busch at the Asia Foundation. Mr Busch received me very well and was only too glad to help. However, as he is leaving Thailand on transfer within this month he advised me to wait for his successor, the new representative, to arrive before submitting the matter for his consideration. So if you could kindly confirm your invitation to the new representative on his arrival next month I would be very much obliged as it will facilitate matters.

There is one point I would like to bring to your attention. In view of the demonstration required regarding Thai musical expression by the human voice and the dance I would like to take my wife along as assistant and hope you will agree.

Thanking you once again.

Yours sincerely,

P. Silapabanleng
