Dear Khun Kulthorn,

Many thanks for your fax of yesterday. However, we are fortunate that the family who moved into our previous house have kept the same number that we had for their fax machine, and that they are more than helpful in redirecting any faxes that are addressed to me!

Please note our new address and numbers:

The project you mention does indeed look interesting and I would be delighted to take on the task of orchestrating "Cherd Nai".

First a question, do I keep to the basic structure as written in the piano score or do I have licence to alter it as I think fit (as in the 5 pieces that I arranged previously)? Also, presumably I should use a standard symphony orchestra size as I did with the BSO and the 5 pieces?

I await your answers and in the meantime I will work out what sort of cost this arrangement will incur you.

Greetings from Monica and I to all your family.,
