Mishigome ku

My dear Pharis

My Siamese music broadcast proved a great success, and so in particular for you. I am enclosing some newspaper reports. (That by the Tokyo Nichi Nichi I sent also to Luang Vichit). To my greatest regret, your intermezzo could not, as intended, be included in the short wave programme to be relayed to Piana, want of time. But I hope it can still be relayed on another occasion since the wax record has been preserved. Concerning the scheme of a music academy in Bangkok things are proceeding on a very slow pace. Anyhow I hope that eventually a substantial success will be achieved.

I am enclosing the programme of a concert I shall conduct on July 4. Now I am holding a series of lectures on Chromatic harmony and another one on fugue compositions. Both are well attended. Besides, a group of 6 students of the academy are studying harmony with me. All your former friends and class mates were happy to hear about you and reciprocate your regards.

Remember me to your family.

Ever yours

M. P.
